Address - R P School Road,Jugsali,Jamshedpur-831006

MY WORK AND AREA OF INTREST

"A passionate programmer, an admirer and strict follower of Object Orient Programming. Obsessed about coding standards and code quality. As a developer in HCL I have extensively worked with JAVA Reflection API to create generic frameworks which are plug-gable and can be easily extended. As a part of my work have created Validation Framework, Role based permission checking framework. Annotation Processing and meta programming are my other work area. I have also been working with Spring 3 and Hibernate 4.1 to create a Restful web services. Overall 17 months of experience in development of Web & Enterprise applications using JAVA and J2EE";
